Key Features

Vinyl-Coated S-Hooks

PVC-coated S-hooks protect vehicle paint and finish from scratches during loading - ideal for motorcycles, ATVs and trailers with delicate surfaces.

High-Visibility Green

Pantone 802C lime-green webbing stands out in low light and roadside checks - improves jobsite safety and quick visual inspection.

VINLOC Brand Consistency

Marked ratchet housing, branded webbing and retail packaging unify the Vinloc standard-duty product family.

15-ft Reach

Extra length compared to standard 12-ft straps - covers longer tie-down points, larger trailers and side-by-side pickups without extension straps.

Standard-Duty Ratchet

Finish-coated steel mechanism with ergonomic quick-release handle for fast tensioning and easy teardown.

4-Pack Bulk Convenience

Four straps per pack - ready for multi-point tie-down jobs. Standard duty for everyday cargo hauling, shelf-stocked in one SKU.
