Key Features

Vinyl-Coated S-Hook

Soft PVC coating protects anchor points from scratches and paint damage — ideal for motorcycles, ATVs, lawn equipment and finished cargo surfaces.

Deeper Grooves on Handle

The ratchet handle features deeper, more aggressive grooves for a noticeably firmer grip - even with gloves, wet hands, or oily conditions.

2-Pack Retail Convenience

Two complete tiedowns per pack — ready for paired cargo (motorcycle, ATV, jet ski) without buying singles, ideal for retail and e-commerce.

Oversized Comfort Handle

Larger ratchet handle with contoured grip delivers better leverage and reduces hand fatigue during repeated tie-down cycles.

High-Visibility Lime Webbing

Pantone 802 C webbing stands out against trailers, cargo and shop floors — fast visual confirmation during pre-trip inspections.

Standard-Duty Polyester

High-tenacity 1" polyester webbing handles UV, abrasion and moisture — built for everyday light-to-medium cargo duty.
