Key Features

E-Track Compatibility

Steel fittings lock directly into compatible E-track rails for fast trailer and cargo-van securement.

2-in Heavy-Duty Webbing

Wide high-tenacity polyester webbing supports stable load distribution during transport.

Reinforced Steel Ratchet

Open-frame steel construction provides dependable leverage and controlled release for heavy-duty use.

1,467-lb Working Load

Packaging states a 1,467 lb safe working load with a 4,400 lb break strength per strap.

High-Visibility Tracer Webbing

Pantone 1235 C yellow with red tracer lines supports fast visual identification and inspection.

Single-Pack Convenience

One complete tiedown per retail unit supports simple shelf stocking and single-strap replacement needs.
