Key Features

Vinyl-Coated S-Hooks

Black PVC-coated steel S-hooks provide secure attachment while helping protect painted anchor points from scratches.

High-Visibility Green

Pantone 802 C green webbing supports fast visual identification during loading, storage and inspection.

Textured Release Lever

Wide textured lever provides firm finger contact for convenient loosening and repeated adjustment.

300-lb Working Load

WLL 300 identification is printed directly on the webbing for fast load-rating checks before each use.

Quick Cam-Buckle Adjustment

Spring-loaded cam action enables fast strap positioning and controlled hand tension without a ratcheting mechanism.

4-Pack Bulk Convenience

Four straps per retail unit support balanced multi-point securing and convenient shelf stocking in one SKU.
